SkillsUSA FL Internetworking
Gold Medal Champion — April 2026

CompTIA A+ • Net+ • Sec+ • CySA+

EDUCATION

SouthTech Academy

Jan 2025 – May 2026

Graduated May 2026 · Honor Roll ·
Honors Classes
Esports Team Captain

TECHNICAL SKILLS

Networking & Security

TCP/IP, OPNsense, Firewall Config,
Suricata IDS/IPS, Remote Access,
Headscale, VPN mesh

Systems & Infrastructure

Proxmox VE, Linux, Windows, LXC,
Docker, NAS Storage, 3-2-1 Backup
Strategy, Troubleshooting

Cloud & Identity

Microsoft Azure, Authentik SSO/OIDC,
Google Workspace, Access Control

General IT

PC Assembly, Help Desk, RustDesk
Remote Support, Documentation,
Communication

PROFESSIONAL SUMMARY

May 2026 graduate of SouthTech Academy and hands-on IT infrastructure engineer. Holds CompTIA Trifecta + CySA+, EC-Council EHE/NDE, Cisco CCST, and 6x Microsoft fundamentals credentials. Designed and operates a production-grade homelab: 3-node Proxmox cluster, OPNsense edge firewall with Suricata, Wazuh SIEM/XDR, Authentik SSO, and zero-trust remote access. Gold Medal Champion — SkillsUSA FL Internetworking State Competition (April 2026). Targeting Junior Network Administrator, SOC Analyst, NOC, MSP, and IT Support roles. Detailed technical documentation and project diagrams are available at my portfolio: masternazz.com.

KEY ACHIEVEMENTS

APRIL 2026

SkillsUSA FL Internetworking — Gold
Medal Champion

UPCOMING

SkillsUSA National NLSC — Competitor
(Atlanta, GA)

MARCH 2026

CompTIA Trifecta (A+, Net+, Sec+) within
3 weeks

APRIL 2026

CyberLaunch State Competition
Participant

WORK EXPERIENCE

Freelance IT Technician

Self-Employed · Boynton Beach, FL

June 2024 – Present

- Remote/on-site support via RustDesk; hardware failure and network troubleshooting.
- PC builds and camera deployments with clear technical communication.

IT & Logistics Volunteer

Center for Child Counseling · Palm Beach, FL

June 2024 – Jan 2026

- Managed event logistics, inventory, and supply distribution for community programs.
- Delivered customer-facing support with a professional demeanor.

PROJECTS — MASTERNAZZ.COM HOMELAB

Enterprise Virtualization

3-node Proxmox cluster (IBM, Dell) running 22 VMs/LXCs. Cisco SG300 + Netgear GS728TP PoE switching, Ubiquiti wireless, 3-2-1 backup strategy (PBS + Synology).

OPNsense Edge Security

Bare-metal OPNsense with VLAN segmentation, Suricata IDS (WAN netmap), AdGuard Home, and ACME wildcard certs.

Zero-Trust Access

Headscale/Tailscale mesh for admin. Public services exposed via Cloudflare Tunnel in VLAN 50 DMZ — zero WAN ports open.

SIEM / XDR Monitoring

Wazuh SIEM ingesting logs from LXCs, Windows, and Suricata. File integrity monitoring and structured alert triage workflow.

Game Hosting & Discord Bot

Pelican Panel + Docker game server infrastructure on Proxmox LXC. Built a Python Discord bot from scratch implementing the RCON wire protocol and pulling live Docker container metrics (CPU, memory, disk, uptime) via SSH — deployed as a systemd service on a dedicated LXC.
