

Nazeem Massoom Dickey

JUNIOR NETWORK ADMINISTRATOR | SOC ANALYST | IT SUPPORT

Boynton Beach, FL · nazeemdickey@masternazz.com · **MASTERNAZZ.COM** · linkedin.com/in/nazeemdickey · github.com/masternazz

PROFESSIONAL SUMMARY

May 2026 graduate of SouthTech Academy and hands-on IT infrastructure engineer with CompTIA A+, Net+, Sec+, CySA+, EC-Council EHE/NDE, Cisco CCST, and 6x Microsoft fundamentals credentials. Operates a production-grade homelab: 3-node Proxmox cluster, OPNsense with Suricata IDS/IPS, Wazuh SIEM/XDR, Authentik SSO, and zero-trust remote access on real enterprise hardware. Gold Medal Champion — SkillsUSA Florida Internetworking State Competition (April 2026). Targeting Junior Network Administrator, SOC Analyst, NOC, MSP, and IT Support roles. Detailed technical documentation and project diagrams are available at my portfolio: masternazz.com.

KEY ACHIEVEMENTS

APRIL 2026 SkillsUSA FL Internetworking — Gold Medal Champion	UPCOMING — ATLANTA, GA SkillsUSA National NLSC — Internetworking Competitor
MARCH 2026 CompTIA Trifecta (A+, Net+, Sec+) achieved within three weeks	APRIL 2026 CyberLaunch State Competition Participant

WORK EXPERIENCE

Freelance IT Technician June 2024 – Present

Self-Employed · Boynton Beach, FL

- Remote and on-site support via RustDesk; diagnosed hardware failures and network issues for residential and small business clients.
- Deployed PC builds and camera systems; documented issues and resolutions with clear client communication.

IT & Event Logistics Volunteer

June 2024 – January 2026

Center for Child Counseling · Palm Beach, FL

- Managed inventory tracking, supply distribution, and event logistics for community programs.
- Delivered customer-facing support and activity coordination; consistently received positive feedback for professionalism.

PROJECTS — MASTERNAZZ.COM HOMELAB (SELF-DIRECTED)

Enterprise Virtualization Cluster

Proxmox VE · LXC · Cisco · Synology

3-node Proxmox VE cluster running 22 VMs/LXCs on enterprise hardware. Configured Cisco & Netgear Gigabit/PoE switching, Ubiquiti wireless, and 3-2-1 backup strategy (PBS + Synology NAS).

OPNsense Edge Firewall & Network Segmentation

OPNsense · Suricata · VLAN · DNS · ACME

Bare-metal OPNsense with VLAN segmentation, Suricata IDS/IPS (WAN netmap), AdGuard Home DNS, and ACME wildcard cert automation via Cloudflare DNS-01.

Gigabit Switching & PoE+ Deployment

Cisco SG300 · Netgear GS728TP · 802.1Q · VLAN

Migrated from legacy FastEthernet to a full Gigabit backbone using Cisco SG300 and Netgear GS728TP. Configured L3 switching, PoE+ for wireless infrastructure, and maintained secure VLAN 50 DMZ isolation.

Zero-Trust Remote Access

Headscale · Tailscale · Cloudflare Tunnel · DMZ

Self-hosted Headscale/Tailscale mesh for admin access; public services via Cloudflare Tunnel in VLAN 50 DMZ — zero inbound WAN ports open.

SIEM / XDR Deployment with Wazuh

Wazuh · Suricata · FIM · Log Management

Wazuh SIEM/XDR ingesting logs from Linux LXCs, Windows, Suricata, and Authentik. File integrity monitoring, alert correlation, and SOC-style triage workflow.

Game Hosting & Discord Automation Bot

Python · Discord API · RCON · Docker · Proxmox LXC · systemd

Pelican Panel + Docker game server on Proxmox LXC. Built a Python Discord bot from scratch implementing the RCON binary wire protocol for live game queries; pulled CPU/memory/disk/uptime metrics via SSH-chained Docker API calls. Deployed as a systemd service.

EDUCATION

SouthTech Academy

January 2025 – May 2026 · Boynton Beach, FL

Graduated May 2026 · Honor Roll · Honors Classes · Esports Team Captain

TECHNICAL SKILLS

Networking: TCP/IP, OPNsense, VLANs, Suricata IDS/IPS, DNS, DHCP, Headscale VPN, Cisco IOS, Firewall Config

Security: Wazuh SIEM/XDR, FIM, Log Analysis, Alert Triage, IDS, Vulnerability Detection

Support: Help Desk, RustDesk Remote Support, Technical Documentation, Escalation Handling

Systems: Proxmox VE, Linux, Windows, LXC, Docker, NAS, Backup Strategies, Hardware Troubleshooting, PC Assembly

Cloud & Identity: Microsoft Azure, Authentik SSO/OIDC, Google Workspace, Cloudflare, Access Control

Tools: Git, ACME/Let's Encrypt, AdGuard Home, NPMplus, Cloudflare Tunnel
