Operations	Troubleshooting, data backup and recovery, monitoring, cybersecurity, recovery planning, change documentation

TECHNICAL EXPERIENCE

Hardware Computer Repair Technician
Sep 2026 – Present

Virtucom, Inc. | Palm Beach, FL

- Diagnose and repair about 15 laptops and Chromebooks a day, replacing keyboards, LCD screens, and other internal parts, and log each repair in Autotask.
- Run day-to-day upkeep of the Palm Beach facility, including cleaning, parts and repair inventory, storage, pickup, and delivery.

Freelance IT Support Technician
Jun 2024 – Present

Self-employed | Boynton Beach, FL

- Configure home routers and resolve Wi-Fi, Ethernet, DNS, Windows, and PC hardware issues for 10+ clients, on site and remotely, then explain fixes in plain language.
- Supported Microsoft 365 accounts, printers, and data backups for clients.
- Restored expected download performance within five minutes by tracing a 100 Mbps negotiated Ethernet link to a faulty cable and validating its replacement.
- Restored domain lookup and browsing within five minutes by separating DNS failure from general connectivity and switching to a working Cloudflare resolver.

SELECTED TECHNICAL PROJECTS

Segmented Three-node Homelab and VLAN Migration
2025 – Present

Proxmox VE | OPNsense | Cisco SG300 | Netgear managed switch | 802.1Q

- Operate a three-node Proxmox environment; moved a flat network into 10 role-based VLANs and migrated 20+ workloads, updating DHCP, DNS, and firewall rules.
- Installed a Cisco SG300 core and traced missing trunk VLANs to restore cluster quorum; repaired an OPNsense captive-portal binding and migrated client DNS to Technitium.

Windows Active Directory and Ticketing Lab
2026

Windows Server 2025 | Active Directory | DNS | GLPI | LDAPS | PKI

- Built a Windows Server 2025 Active Directory domain (AD DS and DNS) in a home lab; practiced help-desk tasks including user and organizational-unit creation, password resets, and group management.
- Integrated a self-hosted GLPI ticketing system with the domain over encrypted LDAPS, secured by an Active Directory certificate authority, and worked sample tickets from intake to resolution.

RECOGNITION

- **1st Place**, SkillsUSA Florida Internetworking, Apr 2026
- SkillsUSA NLSC National Competitor, Jun 2026
- CyberLaunch USF State Championship Qualifier
